Nepal is regarded as an exclusive tourist destination with unmatched natural beauty, geographical attributes and plethora of cultural, traditional and religious heritages. Nepal hosts numerous mountain peaks including Mt. Everest, world heritage sites and tourists destinations drawing millions of tourists every year for recreational, trekking, mountaineering, adventurous games and religious activities. The tourism sector has made a considerable impact in the economy of Nepal being a driver of socio-economic development of the country.

The Tourism Policy 2065 has, thus, put a high priority on developing sustainable and responsible tourism infrastructure by increasing the influx of tourist and tourist activities. The policy also aims to establish Nepal as attractive, safe, exciting and unique tourist destination and create employment opportunity in the rural areas, equitable distribution of benefits of tourism in grass-root level and establish tourism sector as the foundation of Prosperous Nepal. The tourism sector was among one of the hard-hit sector by the Covid-19 global pandemic, but with the prudent plans and policies formulated by the Ministry in coordination with the stakeholders, the tourism sector is rejuvenating showing great resilience.

The Ministry is also working on economic mainstreaming of the tourism by expanding and diversifying the product offering and destination marketing in national and international arena focusing on quality-focused and purpose driven tourism. In order to promote the sector, it calls for an integrated database with details about tourists, their activities, average duration of stay, revenue and expenditures, foreign capital gains and other information related to tourists.

I am elated to publish this annual "Nepal Tourism Statistics 2021" book which will provide detailed information about the tourism sector collected through an arduous effort and will prove to be useful for reflecting the true picture of tourism.

I would like to extend my sincere thanks to all government and non-government organisations that have contributed to make this book possible.

Foreword

Nepal is uniquely endowed with rich and diverse natural and cultural attraction due to its geographical location in the Himalayas. Nowhere else earth is there such an incomparable cultural heritage nor such a rich environmental spectrum from the highest mountains to the terai. Strategically located between two fastest growing countries: China and India; tourism in Nepal is a sector of competitive advantages which can be instrumental in spreading benefits and providing alternative economic opportunities to built peace and prosperity for the people of Nepal. It is one of the potential sectors for the economic development of Nepal. It is a major source of earning foreign currency.

Tourism sector is severely affected by Covid -19 in 2021 too. However, beginning of New Year 2022, tourist arrivals is being increased. It shows the sign of recovery and prosperous future of tourism sectors in Nepal. Government of Nepal is focusing on developing tourism infrastructure; airports, roads, trails and other facilities. Current tourism policy, strategic action plan and development plan are keeping focus to develop tourism sector as an important sector of economy supporting people's livelihood and uplifting living standard of the people. Ministry is committed to keep all efforts to improve and develop the tourism sector to put Nepal as leading place of tourism.

The Ministry is pleased to bring "Nepal Tourism Statistics 2021" as an annual publication. It aims to provide information about tourists by type, length of stay, purpose of visit and tourism activities, revenue generation, tourism industries and other miscellaneous information.

This statistical report is compilation of information received from Department of Tourism, Department of Immigration, Department of National Parks and Wildlife conservation, Nepal Rastra Bank, Nepal Mountaineering Association, Nepal Tourism Board and other related organizations.

I believe the publication helps to fulfill the data gap and explore possibility for the development of tourism sectors. The information included in this publication will be useful to all stakeholders, policy makers, planners, entrepreneurs, researchers and all other interested in tourism sectors.

I am very much thankful to all the government and non-government organizations for providing necessary information. I would like to thank the officials from the Ministry who have been involved in bringing this publication. The Ministry always welcomes constructive comments and suggestions for improving this publication in the future.
