Foreword

Nepal is uniquely endowed with rich and diverse natural and cultural attraction due to its geographical location in the Himalayas. Nowhere else earth is there such an incomparable cultural heritage nor such a rich environmental spectrum from the highest mountains to the terai plains. Strategically located between two fastest growing countries of China and India, tourism in Nepal is a sector of competitive advantages which can be instrumental in spreading benefits and providing alternative economic opportunities to built peace and prosperity for the people of Nepal. It is one of the potential sectors for the economic development of Nepal. It is a major source of earning foreign currency.

The Ministry is pleased to bring "Nepal Tourism Statistics 2019" as an annual publication. It aims to provide information about tourists by type, length of stay, purpose of visit and tourism activities, revenue generation, tourism industries and other miscellaneous information. Tourist incoming is slightly increased in the year 2019.Government of Nepal is focusing on to develop tourism infrastructure; airports, roads, trails and other facilities. Current tourism policy, strategic action plan and development plan are keeping focus to develop tourism sector as important sector of economy, supporting people's livelihood and uplifting living standards. Ministry is committed to keep all efforts to improve and develop the tourism sector to put Nepal as leading place of tourism.

This statistical report is compilation of information received from Department of Tourism, Department of Immigration, Department of Wild life conservation, Nepal Rastra Bank, Nepal Mountaineering association and other related organizations.

I believe the publication helps to fulfill the data gap and explore possibility for the development of tourism sectors. The information included in this publication will be useful to all stakeholders, policy makers, planners, entrepreneurs, researchers and all other interested in tourism sectors.

I am very much indebted to all the government and non-government organizations for providing necessary information. I would like to thank those who have been involved in bringing this publication. The Ministry always welcomes constructive comments and suggestions for improving this publication in the future.

</table>
In 2019, approximately 1.2 million international tourists visited Nepal. This represented a 2% increase on the numbers in 2018, when 11,73,072 tourists visited Nepal. Major reasons for less increment in tourist arrivals are; shout downs of major international airline (Jet airways), decrease in TIA operation hours due to runway maintenance.

Out of total tourist arrivals, five countries occupy almost 53 percent. The proportion of tourists from these countries are; India (21.2%), China (14.2%), USA (7.8%), United Kingdom (5.1%) and Srilanka (4.7%) respectively. Similar seasonality exists in tourist arrivals as in previous year. The highest number of arrival is observed in October followed by November. The highest percentage of arrivals was of age category 31-45 (32%) in year 2019.

Of the total, 83 percentage of international travelers travelled by air and 17 percentages by land.
